

Capability Statement

SURGILUM

...helping *surgeons* see!

Surgilum is a medical device company dedicated to solving common ophthalmic problems with first-in-class instruments resulting in better patient outcomes, greater OR efficiencies, and higher safety standards.

- Disciplined quality management, ISO 13485 certified
- Same day order fulfillment when received before 12:00 pm
- Award-winning, innovative medical product design
- Manufactured in the USA
- FDA approved / CE mark
- Woman-Owned Small Business

RoboMarker® - Toric IOLs, LRIs, Femtosecond laser alignment and LASIK procedures.

Accurate. Efficient. Safe. Cost Effective.

"I was struck by how much quicker and less stressful marking the cornea is with the RoboMarker, eliminating several sources of error in axis determination. The device is ingenious and useful...RoboMarker is a head above other systems."

- James D. Auran, MD | Columbia University Medical Center, NY

ROBO-MARKER®

RMS101 - RoboMarker® Handle

- Self-leveling and easy to use
- Integrated fixation light mimics diagnostic testing
- Gravity based accuracy to +/- 1°
- Single Step axis alignment eliminates secondary marking in OR

ROBO-TIP™

TPS101 - Visible spectrum

IRT101 - Infrared Platform

- Sterile - no autoclave required
- Single use disposable tips eliminate risk of TASS
- Preformulated tips - 2mm linear marks last up to 2 hours, eliminating frequent returns to pre-op for marking

iLight Speculum™ - SMILE, Corneal Inlays, DSEK/DMEK, ICLs, PK, LASIK, MIGS, Trabs, Pterygium

Unprecedented Surgical Visualization.

"As refractive surgical procedures have gotten more complex with many more options, we now have a tool that can make the learning curve much quicker and give us more confidence. With Surgilum's new Speculum and iLight, I can now see surgical details I've never seen before. It allows me to approach a variety of new procedures with greater confidence and a sharply reduced learning curve." William Wiley, MD | Cleveland Eye Clinic, OH

iLIGHT™

BEAM2020- iLight

- Slit lamp technology for speculum
- Reveals previously unseen anatomical details
- Eliminates reflected glare for greater surgical visibility
- Reduces retinal phototoxicity, increases patient comfort

SURGILUM SPECULUM™

SPC101- Surgilum Speculum

- Light weight design for patient comfort
- Advanced Lieberman style autoclavable speculum
- Unique stainless steel allows for iLight attachment
- Curved blades allow variable positioning of iLight
